

DOZUKI

How to use Prerequisites

Written By: Brian Sallee

Step 1 — How to use Prerequisites

Introduction Details Guide Steps

Estimate the time required
Example: 15 to 30 minutes

Estimate the difficulty Easy

guideid:guide#

List any prerequisite guides

- Antec P280 Chassis
- Installing FLO-PRO EGR and Chassis Delete
- guideid:22

If your guide picks up where an existing guide leaves off, add the existing guide as a prerequisite to avoid having to write additional steps. Prerequisite guides will be displayed before this guide. Make sure the prerequisite guides are in the correct order. You can change the prerequisite order by dragging the icons to the left of the guide's name.

List any required parts

- 1 x SCT EGT Sensor Kit

- If the guide you want to add as a prerequisite is in the same category as your current guide, you can simply type the name of the guide and you will see a list of guides to choose from.
- If the guide you want to add as a prerequisite is from a different category, you will need to use the wiki syntax **guideid:20**
- The number **20** is the guide id. The guide id can be found in the URL of any guide.
- **5** is the guide id in the following URL -
slo.dozuki.com/Guide/How+to+Set+up+your+Directv+HDTV+Receiver/5/1-
